

5912-DORSAL-DAB

DAB Antenna

All New antenna, now designed to work for DAB radio. The all-new FIN SHAPED design removed the chance of the antenna getting snagged or broken whilst boarding. With the high impact ABS body there is little that can affect the antenna once installed.

- Low Profile DAB antenna
- Suitable for up to 10 miles range
- Supplied with 8m RG59 cable and Motorola plug
